Irma Erika Herawati, Lisna Dewi, Endah Kartikawati, Syumillah Saepudin:

We have reached a decision regarding your submission to Journal of Fundamental and Applied Pharmaceutical Science, "Standardization, Quantification of Total Phenolics, Flavonoids Content and Antibacterial Activity of Yellow Root (*Arcangelisia flava* (L.) Merr.)".

Our decision is to: revision required

Deadline: June 11, 2026

Please enable track changes at the review menu when revising (Ms. Word).

Reviewer A:

Dear author

Following a thorough evaluation, I have identified several major concerns that need to be addressed before this manuscript can be considered for publication:

1. Several references are outdated. The authors are strongly encouraged to update the literature with more recent and relevant sources.
 2. Materials and Methods: inconsistent terminology for the test samples (e.g., fraction, extract, etc.) should be addressed and standardized throughout the manuscript. This section also lack of analysis data of each method used in this study
 3. figures : several figures unclear/damaged. The authors are strongly repair the manuscript.
- I hope these comments will be helpful for the authors in improving the quality of the manuscript.

best regard
